

Fill and store liquids safely with Justrite Safety Fill Vents and Funnels.

Safety Fill Vents and Funnels facilitate waste solvent disposal, while offering protection. Built of cast brass or high density polyethylene with a 6" flame arrester, they fit a 2" bung opening. Features include automatic pressure and vacuum relief and cap with safety chain to prevent misplacement of cap. High-density polyethylene funnel has full 9" diameter to eliminate spills.

Safety Fill Vents and Funnels
